

Here are some petition 'rules':

- It doesn't matter where people are from; this is a major regional issue. We collect names from everyone that wants to sign, no matter where they live.
- Ask them to print clearly (we don't need actual signatures) and encourage them fill out all the columns.
- Print your petitions one-sided, not double-sided.
- Please keep the petitions nice looking for when we turn them into the City of Prescott.
- Please take a look after someone has put their name on the petition to double check that it is legible and if not, please ask them to clarify what they have written - this saves us a lot of hassle when we do data entry.
- Put your Initials on the bottom left BACK of the finished petition to help track bounced emails later.
- Outfit your friends with petitions and clipboards (please pass along these 'rules' as well).
- Please, DO NOT fill out the page numbers at the bottom of the petition.
- Please DO fill out the date range for which you collected signatures.
- All filled out petitions will be given directly to Treasurer Rod Moyer (rodmoyer@yahoo.com) who will scan and curate the collection.
